Berlin, March 7 .- From present developments it looks as if Italy is not only threatened with a serious revolution, but also with a big exodus of the very flower of her population, if the Government will insist on calling out the reserves of 1872.

Dispatches are pouring in from the Austrian and French territories adjoining Italy which report that young Italians are crossing the frontiers in extraordinarily large conscript duty.

Another startling piece of news comes from Rome, which says that the Government has authentic information that Genment has a surface and the control of the contr from Rome, which says that the Governthe enemy and his men slaughtered in the He also reports that of the 18,000 men who freely impelled toward pleasure so as to high and low. A reporter called on Wednesday evening, May 8, 1895, at the resi-dence of Mr. William McMahon, No. 1688 Pearl street, Breoklyn Village (Cleveland), O., to learn, if possible, the cause of the noticeable improvement in his physical condition over that of a year ago, when he was a sufferer from ago, when he was a sufferer from indigestion and various organic disorders. "You see," began Mr. McMahon, "to start with, my work—that of setting type at the case—allows me little chance for bodily exercise, and is altogether too confining for anybody who is in the least subject to indigestion or dyspepsia. Perhaps not more so than many another mechanic or artisan who is constantly indoors and under severe mental strain, while the physical development is sadly in need of something to keep it in trim. Well, that has been my complaint for years, and some months ago I became very billious, and constipation made life miserable for me at times. Then it took a seat in my LIVER, which became noticeably inactive, and I became alarmed about it. The first thing I turned my attention to was to secure a liver regulator, which, however, failed to regulate next Launch! "liver regulator," which, however, failed to regulate; next I sought relief in "liver pills," which so pained and griped me that the cure was, I thought, worse than the disease. However, on hearing my tale of woe one day at the office, a fellow-workman offered me a small Tabule—Ripans, he called it—which, he said, he would guarantee to act on the liver. I took it under protest, expecting to be doubled up in about fifteen minutes with the 'gripes.' But I was agreeably surprised in its action. It was very gentle, and I resolved to try a box. Since then I have gradually noted an entire change in the working of my system, and think that Ripans Tabules are the best remedy for liver and stomach troubles this side of anywhere. They are really a substitute for physical exercise. Have one before you go?" And Mr. McMahon produced his box of "stand-bys" from his inside pocket as the reporter took his leave.
